GN has stated they would approve a contribution for the replacement of the rolling doors at the Heritage Centre. We'll also be applying for funding for a revised website which is needed with the increase in tourism.

We started ordering for the Sea Lift. We are ordering a fairly large order for the Garage, DPW and Office. This should reduce the down time waiting for parts and reduce the freight cost.

We sent in 2 contributions for old Arena and 1 is for a Quarter Million dollars to insulate the building, it will be 3 faze construction with the first being to fully insulated the arena and install 3 furnaces. The 2nd faze would be to install partition so that the building can be used to park water and sewage trucks and Heavy Equipment. Having the arena insulated with furnaces installed will make a substantial difference to the operation of our vehicles.

We also have applied for close to 50 thousand dollars to do fencing around the Baseball Diamond.

QIA just approved \$93,591 for a Mentorship program that will start in August. Naomi the Wellness Coordinator will run the program.

I just signed another contribution \$36,500.00 Sports and Recreation. \$20,000.00 to improve the facilities for the Community Hall, \$10,000.00 for physical activities and different programs we want to run. \$5,000.00 for additional recreation programs and \$1,500.00 that we can give to volunteers as a thank you. We also received the \$15 thousand dollars for the radio. This year Bingo will be paying for radic air time.

NRTE told us that they had tactical meeting, they told us that there's funding available, so we want to send somebody that is funding available.

On the financing side, we will arrange a Financial meeting this week. There's only four items left on the Aged Payable list as of today.

When I came it was almost a book, with 2.8 million dollar showing in overdue invoices. We got a lot of that paid, as you can see from the invoices approved during this meeting. The deficit ending March 31, 2019 is going to be close to 2 million. With dollar increases in the contracts for example the Airpo these should help us considerably moving forward.

While Barrie Cameron was here a lot of maintenance work was completed on our fleet of vehicles & equipment. This should hopefully reduce the number of breakdowns and cost over the next 4 to 6 months. Barrie did a considerable amount of training with Isa and Stephen. Barrie will return in September for 3 to 4 weeks to ensure all maintenance is up!
