4. **Delegation(s): RCMP:**

Jeff Cranton: I'm the new Sergeant here and I've been here since April. 172 calls for service in June compared to 240 in June of last year. 121 of the 172 calls involved alcohol. 58 people were detained in cells, one incident involved firearms and we had assistance from Iqaluit to deal with the matter, it ended with no one hurt and charges laid. We had three investigations regarding sexual offenses against children. We had assistance from Iqaluit for interviews and charges were laid. Some members attended an intra-agency meeting involving Probation, Health, and Wellness, and the Health Center staff to agree to work together on issues such as alcohol, children's safety, and other issues affecting the community. 2 members will be leaving in the next couple of months and will be replaced by one member who is already in the territory and one from Alberta. We've had the 5th position for an officer open for a while but can't hire anyone as there is no unit for them, any assistance with that is greatly appreciated. We are also short of guards and have to do guard duty instead of our regular duties so we are asking Council if anyone is interested in

the position and we will be posting posters around the community advertising for the position.

Karen Nutarak: I can ask the Nunavut Justice Minister if he can come along for the small craft harbour opening, the Hamlet could meet with him and discuss the residence and the need for the 5th officer.

12.4 – Health & Wellness:

Moses Koonark: We had met in the past, during the spring we held a seal hunt for youth and elders, they caught young and mature seals. Everyone had a great time. Our Director worked with us the whole time during Canada Day and Nunavut Day, I think we owe her our gratitude. I was a judge for the traditional fashion show, we had winners. We also met to discuss the Food Bank Committee and we now have 5 members, Linda Arnakallak, Ripa Tagak, Mary Simone, and Guy Nutarariak. During one of our meetings we were also asked if we could put up barriers on the bridge near the beach in the middle of the community, we did have a vehicle almost fall off the bridge in the past.
Joshua Idlout: I appreciate the hard work Health and Wellness, Recreation committees, and staff did for the festivities.
Moses Koonark: The Dust Audit Committee met, we discussed the dust created from blasting and the dust caused by the haul truck tires because of their heavy loads. We are separate from Baffinland but they do have the representation we can ask questions to and share our concerns. We looked at scenarios where the ore from Mary River would be stored in buildings at Milne Inlet. We informed Baffinland that they will need to create that kind of infrastructure if they want to keep mining in the future. People had said geese had died near Milne Inlet and thought it was due to the dust, but I told them birds in the south had avian flu and that was probably the case. A person from Arctic Bay suggested Baffinland hose down their ore loads in the haul trucks as there are many lakes and ponds between Mary River and Milne Inlet.

more tour guides for the trip. Some Council members attended the intra-agency meeting with the Coast Guard, and they told us of their plans. We will be meeting on Monday at 3 PM to plan for the small craft harbour opening.
