**13. Mayor's Report:**
**Lᐃᔨᐅᑦ ᐅᓂᒃᑲᖓᑦ:**

**14. CAO's Report:**
**David Stockley:** Work will be commencing on the new Zamboni garage this week.
Stop signs have been installed at the airport short-cut and the new subdivision. They're also replacing signs around town this week. The road maintainers are still working on upgrading the roads around town. The new excavator and screener are making a huge difference in being able to produce the right product for the roads. The Gazebo was put in place on the hill today. It's worth taking a close look at it. Excellent workmanship. The Electrician is in town putting the final touches on the Wellness Center and will hopefully be finishing the electrical work at the Shelter. The dust control Totes are arriving on another sealift ship on September 26th.
I did a Teams Meeting with the "Green and Inclusive Community Buildings Program Team today regarding providing 1.5M to do a Men's Shelter and some additional funding for the Wellness Center. The carpenters are working on the patio at 556. They will be leaving on October 13th. Election – October 2023 – Dustin Fredlund to present at the NAM meeting in November in Iqaluit. SAR – Jakob, Search & Rescue Training Officer, advised they don't have any funding for radios, but will supply the Garmin InReach Explorer+, Garmin Map 276cx, and GEN 3 SPOT

devices. He advised he sent an inventory form to Search & Rescue in Pond Inlet earlier this year but wasn't returned. They recommended that if they are low on SPOTs, they should do a radio announcement to have the public return them. He advised their department is also looking for translators to help with training sessions normally 4-5 days. Larry Lennox, I tracked him down in Ottawa and got his address. He agreed to pay all delinquency approximately $2k. He also advised that he would be visiting next spring and would clean up the property. He advised that a lot of the crates were put there to stop people from using his land to get to the beach. Apparently, the Hamlet back years ago built a road across his land and a lawyer was involved and supposedly the Hamlet was at fault.
